

Does your Child (age 0-3) Have Special Needs?

Early Intervention programs offer many services to help children with special needs such as:

- Delayed or unusual development
- Vision problems
- Health problems
- Hearing loss
- Autism
- Brain injury
- Speech or language problems

This page will help you find the services you need for your child and your family.

**Early
Intervention
starts here:**

Call:

Children's Developmental Services Agency (CDSA)

.....**251-6091**

CDSA will evaluate your child at no charge, and if eligible will:

- Develop a special plan for your child and family
- Provide and/or arrange needed services (such as speech, physical and occupational therapy, social-emotional support and special instruction)
- Deliver all services in the home and/or other community setting

**If your child does not
quality for Children's
Developmental
Services Agency
(CDSA)**

Call: CARE Coordination for Children (CC4C)

Buncombe County250-5299

Henderson County Health Department694-6089

Madison County Health Department649-3531

Transylvania County Health Department885-7373

If your child qualifies, CC4C will at no charge:

- Help your family identify your strengths and concerns
- Connect you with other services and resources
- Identify ways to strengthen the parent-child relationship
- Provide information, support and on-going education
